Functional Requirements

ID	Requirements	Priority	Category
FR-01	The system shall allow students to register using name, email, and password.	Must	User Management
FR-02	The system shall allow tutors to register using name, email, password, and bio.	Must	User Management
FR-03	The system shall allow users to log in using email and password.	Must	User Management
FR-04	The system shall allow tutors to add skills to their profile from a predefined skill list (e.g., Baccalaureate Math, Arabic, Physics, Python).	Must	Skills Management
FR-05	The system shall allow tutors to upload qualification files (PDF/images) as proof of expertise.	Must	Skills Management

ID	Requirements	Priority	Category
FR-06	The system shall allow students to search for tutors by skill name	Must	Search
FR-07	The system shall allow tutors to set their weekly available time slots.	Must	Booking Management
FR-08	The system shall display only tutors who are available at the time selected by the student.	Must	Booking Management
FR-09	The system shall allow students to send a booking request to a tutor for a specific time slot.	Must	Booking Management
FR-10	The system shall allow tutors to view incoming booking requests.	Must	Booking Management
FR-11	The system shall allow tutors to confirm or reject booking requests.	Must	Booking Management

ID	Requirements	Priority	Category
FR-12	The system shall send an email notification to the student when their booking request is confirmed or rejected.	Should	Notifications
FR-13	The system shall allow students to type a natural language request (e.g., "I need help with Math for my Baccalaureate exam") and receive top 3 tutor suggestions.	Should	AI Recommendations
FR-14	The AI recommendation engine shall consider skills, urgency (keywords like "exam", "Baccalaureate"), and tutor rating when generating suggestions.	Should	AI Recommendations
FR-15	The system shall allow students to leave a rating (1–5 stars) and optional comment after a completed session.	Must	Reviews
FR-16	The system shall display the average rating and recent reviews on each tutor's profile.	Must	Reviews
FR-17	The system shall allow students to view their upcoming and past bookings.	Must	Booking Management
FR-18	The system shall allow tutors to view their upcoming sessions and booking history.	Must	Booking Management

Non-Functional Requirements

ID	Requirements	Priority	Category
NFR-01	Search results for tutors by skill shall return within 3 seconds under 30 concurrent users.	Must	Performance
NFR-02	AI recommendation results shall load within 4 seconds per request.	Must	Performance
NFR-03	All passwords shall be hashed using Django's default PBKDF2 algorithm.	Must	Security
NFR-04	All user identifiers shall use UUID v7 instead of sequential integers, and no sensitive data (email, password, phone number) shall appear in URL parameters	Must	Security
NFR-05	The system shall be accessible via modern browsers (Chrome, Firefox, Edge) without errors.	Must	Compatibility

ID	Requirements	Priority	Category
NFR-06	The UI shall be responsive and usable on mobile devices (screen width 375px and above).	**Must**	**Usability**
NFR-07	File uploads (qualifications) shall be limited to 5MB per file and support PDF, JPG, PNG formats.	**Must**	**Usability / Security**
NFR-08	The system shall handle up to 50 concurrent users during demo without crashing.	**Should**	**Scalability**
NFR-09	Booking confirmations and email notifications shall be sent within 5 minutes of the action, with 99% delivery success rate.	**Should**	**Reliability**
NFR-10	The system shall achieve 99.5% availability during the 14-day evaluation period, with maximum consecutive downtime not exceeding 2 hours.	**Should**	**Availability**
